Community Outreach

301a is a grassroots organization serving primarily Guatemalan residents in south Rome. By providing food, relationships and resources, 301a has the opportunity to care for both the physical and spiritual needs of those who cross through its gates. At its simplest, 301a is an advocate for the neighborhood - sharing life and loving neighbors well. Its mission is to bring heaven down to earth for the residents of south Rome, and though it is small, the Lord has already accomplished much. Check out the many ways to help serve this growing community. All ages are encouraged to serve!
